

Hello! My name is Ferdinand, a 25-year-old enthusiast from Utrecht in The Netherlands. Currently, I'm immersing myself in the fascinating world of International Hospitality Management. This internship will be my next chapter to my academic journey. You can find me 5 days a week at the office Monday to Friday till July 2024.

I see St. Maarten as an ideal place to broaden my understanding due to its diverse yachting community. I chose the SMYC because it offers me a chance to interact with international clients. What I enjoy most about my role until now is that every day is different, with new people to meet and new challenges every day.

In terms of my ambitions, I see this internship as a step towards a broader horizon in the hospitality domain. The hands-on experience I am gaining here will help me further in my career.

Apart from work, I like to watch documentaries, especially about technology or nature. Spending quality time with my family and talking about different topics is also something I really enjoy.
